

RADIANT P1220 POINT-OF-SALE TERMINAL

for the hospitality industry

The Radiant P1220 point-of-sale (POS) terminal provides an exceptional combination of performance, reliability, flexibility and low total cost of ownership in a compact package that fits virtually anywhere in any type of food service location. With a very bright 12-inch touch screen display, the P1220 maximizes speed-of-service with fast order entry in brightly lit front counter or drive through installations. The P1220's small size and silent operation ensure that dining room installations can be close to where servers work, improving guest service without affecting décor or atmosphere. While small in size and cost, the P1220 is big on durability and features designed to maximize value in food service locations.

RADIANT P1220 POS

➤ **SERVE CUSTOMERS FASTER**

Serve customers faster and more accurately with a high performance POS terminal that stands out by combining small size with high power. Using cutting-edge Intel® Mobile technology, a bright display and very fast sign-on options, the P1220 combines speed for your customers with ease of use for your staff.

➤ **INSTALL IT ANYWHERE**

Put your investment where your staff and customers are to maximize productivity and service. Occupying only 13"x13" of counter space in standard tilt-mount installations, the Radiant P1220 can also be mounted on walls or even radial tilt arms. The P1220 is tough enough to go where you need to put it, with a rugged enclosure and electronics that can withstand spills without interrupting service.

➤ **CONNECT IT TO EVERYTHING**

With connections for up to 10 peripherals, and five different customer display options, the Radiant P1220 can connect directly to all the retail devices you need to serve your customers quickly and at low cost. Wired and wireless networking options allow secure, high speed connections and the flexibility to place the terminal wherever you need it to be.

➤ **REDUCE YOUR COSTS**

Eliminate technology-related service interruptions. The Radiant P1220 POS is built for non-stop sales reliability, rapid installation and fast return-to-service. Designed with the challenging food service environment in mind, the P1220 offers highly rugged performance over the long haul.

The Radiant P1220 point-of-sale terminal provides a truly unique combination of unmatched value, compact size, and configuration flexibility that can meet the needs of almost any operation. With high performance, solid state configurations and a rugged design specifically created for the foodservice industry, the P1220 can be mounted virtually anywhere in your operation. Choose the P1220 for a fast, bright, cool, quiet, tough, and well connected point-of-sale terminal with higher uptime, longer life and the best service options available anywhere.
